Rick,

CHEM informed SMO that when trying to schedule a UPS pick-up for the data packages for Case 42753, they are receiving a UPS error notice indicating that "The Ship To address was not found in the database, or requires additional information" (see attached UPS Validation Form). Can you please confirm the address listed below that was provided to the laboratory is correct as written, and please advise if there is a different address to which the data packages can be sent.

Thanks,

MARGARET JAROSZ

Hi Margaret,

Hard copy for this job should be sent to me at:

Rick Wilkin
US EPA
919 Kerr Research Drive
Ada, OK 74820

580-436-8874

Going forward, hard copies will go to different addresses for different data packages. How can we best provide this information?

Thanks,
Rick

Subject: Hardcopy Deliverable Address for Case 42753

Good afternoon,

CHEM contacted SMO inquiring about where they should send the hardcopy deliverable for Case 42753. They did not receive an address to which it should be sent. Please let me know so that I may provide the address to the laboratory.

Going forward, will the hardcopy deliverables for all future Cases be sent to one specific address, and if so, what is the address? Or will the recipient address vary from Case to Case? If the address will be different for each Case, please let me know so that we can discuss the best way to proceed. In my opinion, the most effective approach would be for the person entering the Case into ASR to list the address to which the hardcopy deliverables should be sent in the Comments Section of the ASR as Cases are submitted.

Please let me know if you have any questions.

Thanks,
MARGARET JAROSZ
